## “SKIP THE SLIP” WITH EAGLE TOOL’S NEW LINE OF CABLE BITS

The new ET X Flex series has a notch in the end that keeps the set screw from any standard flex extension or hex adaptor from slipping when in use. Made in the USA, these bits are as tough as it gets. Our ultra sharp threads give these bits the best pulling power available. Three flat grip and notch on the chuck end. Wire fishing accommodation holes in the head and shank.

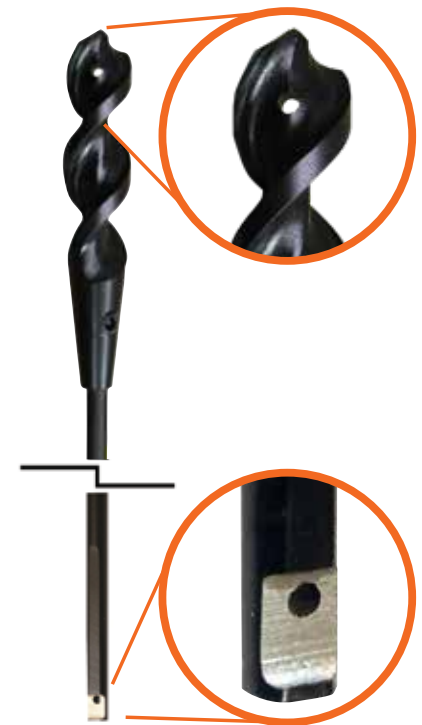

### X FLEX Installer Drill Bit, Screw Point

The ultra sharp threads give this bit the best pulling power available in this style bit. It moves quickly through obstructions in walls. This bit comes with fish accommodation holes in both the flute and the shanks. It also comes with a three flat nonslip grip.

### X FLEX Drill Bit, Auger Style

The ultra sharp threads give this bit the best pulling power available in this style bit. It moves quickly through obstructions in walls. This bit comes with fish accommodation holes in both the flute and the shanks. It also comes with a three flat non-slip grip.

### X FLEX DIRT AUGER

Auger and Install Wire or Pipe Under Sidewalks and Driveways. Other Applications include Cable Installation, Landscape Lighting, Sprinkling Systems, Landscape Feeding Stakes. Eagle Tool's new dirt auger system is an economical and less labor intensive way to install cable and sprinkler systems under existing sidewalks and drives or place landscape feeding stakes.
